1965 - To Date

Highway Materials Test File (Sealed Contract)

10. What is the function of the office in which this record series is created? The Division of Highways is responsible for the planning, location, design, construction and maintenance of all roads and bridges financed by Federal-Aid, State-Aid or Authority funds. Only those county roads and city streets financed entirely through local funding are designed, constructed and maintained without the supervision or participation of the Division. The Division of Highways is divided into five sections: The Pre-Construction Section, which determines project location through aerial photography and mapping, designs the bridges and roads involved, and obtains the right-of-way necessary; the Construction Section, which conducts the tests of soil and materials involved, oversees construction and assures quality control, and supervises the seven District Offices throughout the state; the Operations Section, which issues permits and enforces regulations governing overweight and over-size vehicles, designs improvements in vehicular and pedestrian traffic controls, effects the relocation of utilities existing on project right-of-ways, administers State-Aid, and maintains the quality of highways; the Federal Liason Section, which works to obtain Federal Funds and expedite compliance with Federal Highway Administration requirements of Federal-Aid projects; and the Tollroads Section, which coordinates, administers and supervises the development, financing, implementation and operation of existing and proposed tollroads.

11. This file contains the following documents (include form numbers and titles, if any, and file arrangement):

Documents relating to the construction of projects financed by Federal-Aid, State-Aid, and Bond Funds.

See attached list for documents included in the series.

The file is arranged numerically by project number.
